Proposal Project 2:

Monica James
Dustin Garza
Patrick Lisk
Rebecca Cate

## 1. A brief articulation of your chosen topic and rationale

Question: Is a 4-year college education becoming cost prohibitive?

It appears to us that rising cost of colleges and the debt with it may cause a shift in our culture and/or our college education system.
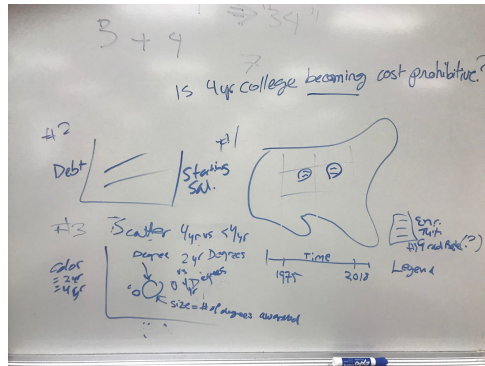

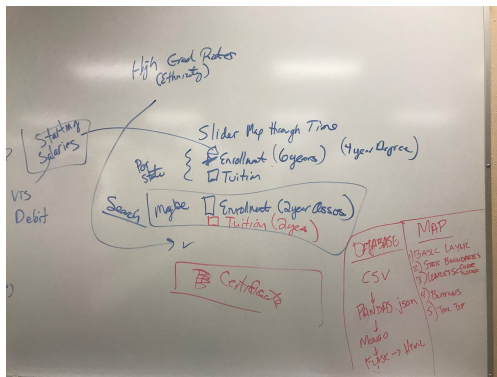

2. A link to your dataset(s) and a screenshot of the metadata if it exists.

https://nces.ed.gov/programs/digest/2016menu_tables.asp

3. 3-4 screenshots of relevant "inspiring" visualizations that frame your creative fodder.

4. A sketch of the final design.

5. A link to the primary GitHub repository you'll be housing your work.
